

FIRST  
INTERNATIONAL  
CONFERENCE IN  
AGRICULTURE AND  
FORESTRY

AGRIBASE

ÇUKUROVA UNIVERSITY

APRIL 2020

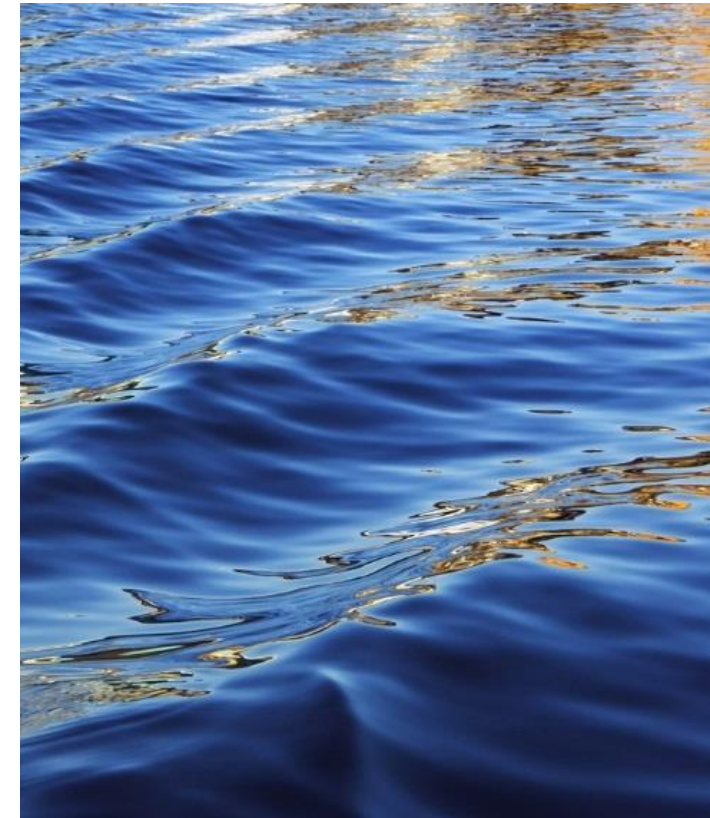

The conference is organized as a sustainability activity of:

Boosting Adult System Education in Agriculture- AGRIBASE Erasmus+ project

Boosting Adult Education in Organic Farming- BIOFARM Erasmus+ project

Boosting Agricultural Science and Education through Internationalization- AGRIBASEII Erasmus+ project

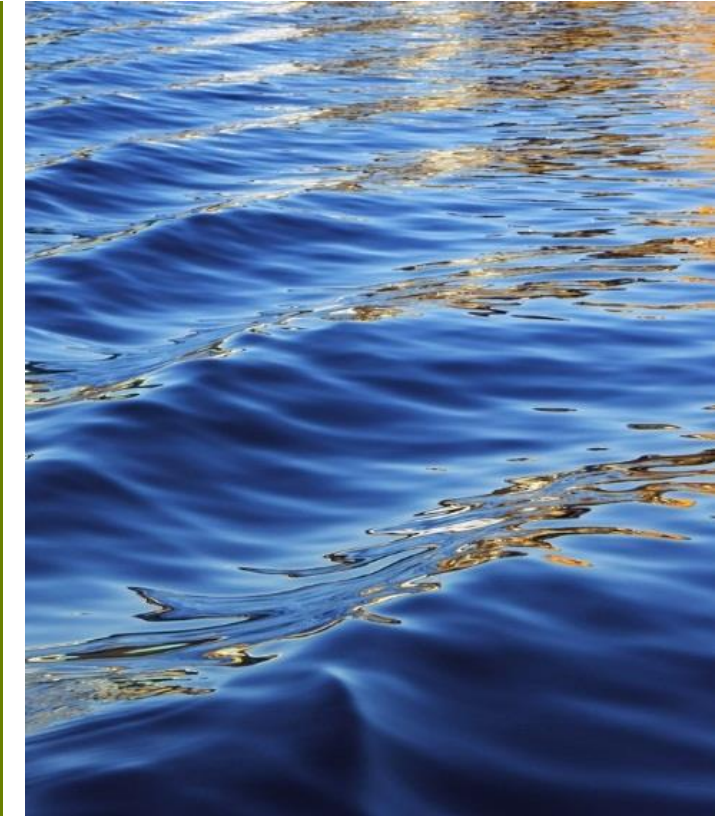

Abstract submission: 30.09.2019  
Full paper submission: 31.12.2019

Conference fee:  
Early bird registration- 30 EUR (per author) academic  
20 EUR (per author) PhD student/other  
Early bird registration until 31.10.2019.

After that:

45 EUR (per author) academic  
30 EUR (per author) PhD student/ other

# CONFERENCE TOPICS

## Sustainable agriculture and protected farming

- Sustainable plant production, protection and quality
- Biological pest control and IPM in protected systems
- Crop modelling, management and cultural practices
- Irrigation and Fertigation
- Soilless and hydroponic culture and bio- systems
- Agricultural biodiversity and biological natural resources
- Climate change impacts, adaptation and mitigation in food security
- Agricultural production systems
- Agricultural waste management

# CONFERENCE TOPICS

## Livestock management

- Animal agriculture
- Animal conservation
- Animal management and welfare science
- Aquaculture and fishery
- Poultry farming
- Honey-bee farming
- Sustainable livestock farming

# CONFERENCE TOPICS

## Agricultural Production Systems and Agribusiness

- Agricultural economics
- Agribusiness and financial management
- Corporate farming
- Agriculture resource management

# CONFERENCE TOPICS

## Agriculture engineering

- Agriculture advanced machines
- Polymer in agriculture
- Nanotechnology in agriculture
- Precision farming, remote sensing and Agri GIS
- Irrigation and Fertigation
- Soilless and hydroponic culture and bio- systems
- Sensors, automation and robotics

# CONFERENCE TOPICS

## Greenhouse and horticulture

- Greenhouse systems and design
- Organic greenhouse horticulture
- Plant conservation
- Fruit and vegetable breeding
- Aquaponics
- Greenhouse technology
- Vertical farming

# CONFERENCE TOPICS

## Cross-sectorial disciplines

- Environmental dynamics
- Deforestation
- Wetlands
- Eco-technology
- Bio-engineering
- Applicative and professional linguistic specific skills
- Ethics
- Research data protection

Università di Foggia
